

9th Workshop ELI

Genomics of lymphoma: from basic to clinical use

In collaboration with the EHA lymphoma study group

16-17 October, 2023

Hybrid event

IUC Dubrovnik, Croatia

Monday October 16th

13:45 Introduction: H.Tilly, S. Luminari, I. Aurer

14:00 Session 1: Genomics and lymphomas

Chairs: J. Desterro and I. Aurer

14:00 Current overview of genomics in aggressive lymphomas D. Hodson

14:30 Current overview of genomics in indolent lymphomas J. Okosun

15:00 Session 2: What genomic brings to the clinic

Chairs: M. Gomes da Silva, M. Zikmundova Klanova

15:00 The clinician point of view A. Davies

15:20 The pathologist point of view J. Cabeçadas

15:40 The molecular biologist R. Chiarle

16:00 *Coffee break*

16:30 Session 3: Circulating DNA

Chairs: S. Ferrero and A. Lopez Guillermo

16:30 State of the art of the technology D. Rossi

16:50 Clinical applications DLBCL S. Alig

17:20 Clinical applications MCL S. Ferrero

17:40 Clinical Applications HL V. Camus

18:00 Clinical application FL M. Sánchez-Beato

18:20 Conclusion of the day

20:00 *Diner in town*

Tuesday October 17th

08:30 Session 4: Ongoing European projects

Chairs: M. Dreyling and S. Mrdjenovic

08:30	LYSA, RT3	F. Jardin
08:50	The UK DIRECT Trial	D. Hodson
09:10	Czech Republic	P. Klener
09:30	European MCL Network	S. Bea
09:50	European Consortium for WM	C. Buske
10:10	FIL, translational projects	M. Ladetto

10:30 *Coffee break*

11:00 Session 5: Future of genomics

Chairs: S. Dubois and S. Leppä

11:00	Evolving role of Bioinformatics	F. Cordero
11:20	AI assisted gene expression	Ph. Ruminy
11:40	Genomics meet radiomics	S. Luminari
12:00	Single-cell DNA analysis in lymphomas	M. Alcoceba
12:20	Preclinical models	D. Calado
12:40	Conclusions on the Workshop	S. Luminari
	Wrap up	I. Aurer, H. Tilly

12:45 *Buffet lunch at IUC*
